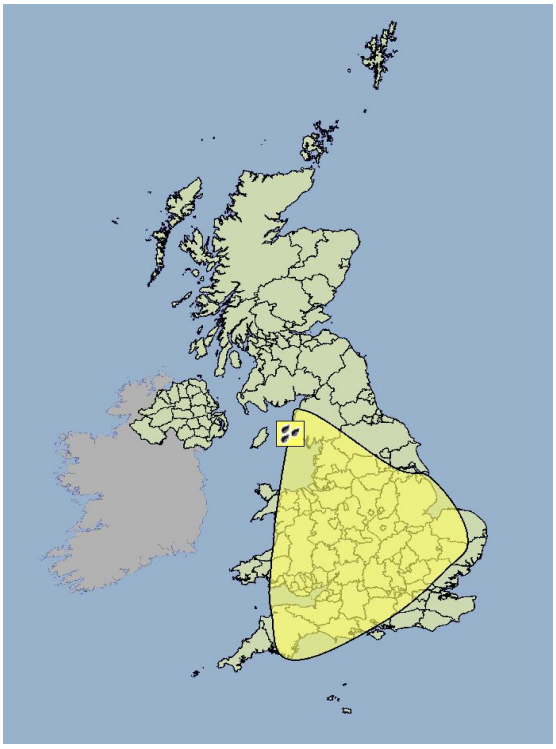
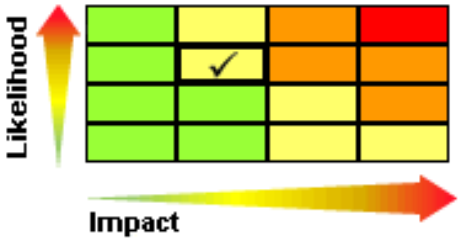
National Severe Weather Warning Service





Chief Forecasters Assessment
The daily rise in temperature will again trigger slow-moving heavy showers and thunderstorms. Once again, 15-25 mm could fall within an hour in scattered locations, and possibly more very locally,bringing the risk of flooding, especially if across urban areas.

The Met Office have issued a **Yellow Warning** of **Rain**

Valid from **10:00 on Thu, 16th Jun 2016** until **22:00 on Thu, 16th Jun 2016**

Scattered heavy showers are expected to develop yet again on Thursday, and will lead to slow-moving downpours. As on preceding days some locations will miss these downpours, but please be aware of possible localised flooding and disruption to travel where they do occur. Lightning could be an additional hazard.
